story

One rainy night in October of 2015 my 24yr old boyfriend Chris fell off his bicycle on our way home. Weeks passed with his pain getting worse. After numerous visits to the hospital with no action he was finally diagnosed with a brain aneurysm. Society sees a person and thinks "she's pretty " "he's cute " "he's ugly " "she's fat." What they don't see is the person inside - the soul within our outside surfaces. We judge and judge people because we think we know the person. Ken Ducharme is a loving husband father brother and grandfather. He was a mechanic repair man and hardworking truck driver for over 40 years and is now disabled due to a work related accident. He is a kind man who is always there for his family. Dear Friends On a recent trip to Ukraine to visit her dad Alina was diagnosed with a stage 4 Squamous Cell Carcinoma. While she thought she had an inflammation in her throat from a cold a few months prior it turned out to be cancer. As so many of you who know me are personally aware I have always generously given to and supported the fundraising efforts and needs of an extraordinary number of charities (over 125 of them) schools temples churches and more. My health insurance was suspended a couple months ago for non-payment (could not afford) and my account will be terminated at the end of this month and I will not be able to get insurance again until open enrollment next year. We need help keeping our Health Insurance that runs out at the end of March 2019. This is one of the hardest things for us to do: to ask for help. Not because of pride but basically realizing that we cannot do it all ourselves. I am currently paying for health insurance is a burden for everyone but especially for Religious Priests and Seminarians living out their full consecration to God through the vow of poverty. The monthly premium we are currently asked to pay is \$1,200. Recently my grandma got hip replacement surgery. She was lucky enough to only be in the hospital for a couple of days and is now at home for the rest of her recovery. Also recently my grandparents were hit with a major I finally years of Jiu-Jitsu has caught up to me and I had to under go knee surgery last month. Surgery went great and I was walking the next day. Then out of nowhere I felt as massive side pain that lasted a day in a half. I called my doctor. Benny is a beloved stylist at Bestcuts who recently took a fall and broke his hand in 3 places. He will unfortunately be out of work for awhile and without health insurance and income coming in the bills are piling up fast we wish this was my dad Bob Scott. He's now 84 dealing with strokes and other issues. Last year he had another stroke. My mom said they told their heart dr they would have to pass on some heart procedures because they can't do them. My wife Dawn is a full time employee for a daycare center and works in the infant nursery. It takes a special kind of person to deal with the little ones day in and day out but she loves the babies that are in her care and loves the children. After just over ten years of service I lost my job early last year. Since then while in job search mode I've managed to hang on financially with limited funds from severance unemployment 401k funds and finally early filing of my health insurance. My friends know what's been happening with problems surrounding my insurance over the last 4 months. Yes COBRA was finally reinstated but I learned today that my premiums are DOUBLE what they were and if I don't pay them I lose it. My mom Deana Taylor who is a disability retiree from the State of WV received a letter earlier this month (see below) indicating that her health insurance premiums were not paid in full and she owes \$1 814.50 by December 1st. Mystery Meat is a corner store to the east Atlanta drag community. As a trans man health insurance is a useful tool he could use. So as a friend I wanted to help him raise the money to get at least a few months of health insurance. Due to some unexpected expenses My Mother is about to lose her health insurance and her house she has been fighting cancer for the past year and as bills pile up she's having problems being able to pay for her cancer treatment. Hello my name is Brianna and my mother Star Camardelle was recently diagnosed in the early stages of rectal cancer which is extremely aggressive and likely to spread to her other organs. My mother suffers from mental health issues. Thank you for taking the time to read our story. I recently found out I was dropped from my mother's insurance policy with Blue Cross Blue Shield. As life goes I'm now experiencing a medical emergency after relocating to Florida. On January 5 2019 I had made a trip to a local Wal-Mart here in Eden NC. I proceeded to enter the store and go to the Pharmacy Department of the store to pick up a prescription. I have had some minor seizures in the past. First let me Thank You for your time and consideration. This is my Daughter Lallani Hickerson. For the past 34 years my wonderful daughter has been fighting a serious health condition. It comes with a heavy heart to say my daughter Michelle has multiple sclerosis. Her medical insurance will soon be increased from \$385 to \$500 per month. Our goal is raising \$1 380 to cover the extra \$115 per month for the year of 2019. Thank you so much for helping. Jeff Groff is a 56 yr old hard working man practically a stepfather to me. Jeff works hard everyday to make sure other people have their needs met before he ever worries about himself. Six months ago Jeff lost his job of nearly 20 years. April is our least favorite month of the year. Spring has sprung difficulties on us once more this year in the shape of financial issues and the passing of our fluffy monster Strahd. (He's with Dave in the picture.) Lots of work is being done. My best friend in the entire world is Spencer. In 2014 Spencer's mom passed away and in March so did his father leaving Spencer an orphan at 18. Spencer is a trans man and is on hormones. When his father passed away my story is somewhat of a long one so here it goes! I am chronically ill. I was diagnosed with Depression at 14 Generalized Anxiety Disorder at 16 Panic Disorder at 17 PTSD at 18 and Bipolar I Disorder at 21. In order to treat myself I lost my job in November due to an accident that I had only a week before completing my probationary period. Thank God there were no injuries nor traffic violations involved. I have been looking for work since then. I had to meet Angel a 32-year-old legal professional with a beautiful smile and an awesome personality. Angel graduated from Loyola University Law School and is currently studying for the bar exam. She loves her dog (Jupiter) and her family. I've been out of work since April 2018 due to severe lower back pain. My procedures started as steroid injections epidural injections and two back surgeries. My last surgery consisted of a fusion surgery placing a metal plate on my back. Rabha is 64 years old and a mother of 6 children. She is originally from Morocco and came to the US to assist one of her daughters to raise her baby. Rabha does not have any income or any type of health insurance. For the past 4 months On Dec. 4 2018 my wife Karla suddenly fell to the floor. I had no idea what was happening. We immediately called 911 for help. She was suffocating with her own vomit. I immediately began CPR on my wife. The paramedics arrived and she was taken to the hospital or a skilled nursing facility since March 5 2018. Her employer was super gracious and allowed us to continue to pay her part of her insurance premiums from March 1st until September 1st. On March 1st Hello friends and family!! we've never had to ask anyone for help with this kind of thing before so even though I feel a little awkward about it here I am anyway. It's finally that time of year where the holidays are happening and (L) Lottie is going to have a total hysterectomy and be off work for 2 months. She is having to pay out of pocket for the procedure and continue to pay for her monthly insurance coverage while she is out of work. Lottie is always out of work. This is embarrassing but I need help. After my father's death and being unemployed I went into major credit card debt (\$30k+). I have 2 Credit cards that are maxed out. My job did not put my paperwork in on time and I had to pay for it. Hello Family HOJ Saints Friends.We are reaching out to all in this time of truly need for Financial SUPPORT.FOR A TRUE LOVING PERSON AV.SR. MOTHER KREN PREWITT. Who has fallen really ill. WITH LIMITED MEDICAL HELP. Chrissy has lost her father with no life insurance. He is now buried but she had a heart attack that caused her to not walk. Her mother Gay Franz has health issues that need help. They are losing their home in 30 days and will be homeless. My girlfriend's health insurance was dropped I need help until it gets reinstated she suffers from seizures known as cluster migraine attacks....

Tim Butterworth is a talented musician a driven performer a devoted son a hilarious brother and a loving uncle.A fantastic piano player and singer he is no stranger to the stage and has played up and down both coasts - from coast to coast. Dear friends loved ones and fellow humans our incredible friend Rachel desperately needs our help! A little over a week ago Rachel Busch was sexually assaulted and brutally attacked in Houston TX. The attacker did so right in front of her. As many of you great people know our dear friend Sandy Shapiro was recently diagnosed with Acute Myeloid Leukemia and is now undergoing the first of what will be four intensive rounds of chemotherapy. Each round requires a lot of money. Ray Donnelly our friend and co-worker was diagnosed with stage 4 metastatic colon cancer in March 2018. Ray comes from a large Northern Irish family with 3 sisters and 2 brothers and married Pam his girlfriend (and not his wife) Let me tell you about Jaylen. Jaylen is a charismatic motivated hard working young man and a loving father. He prides himself on being physically fit and living a healthy active lifestyle. Jaylen is the oldest of 3 children. He is a very kind person. Nikola's favorite things in life are simple. The sound of his grandma singing to him the feeling of the sun on his face eating sweet ripe bananas listening to his mama reading him stories and going for daily walks in the fresh air. Dear Friends: Help us save our brother father grandfather and friend Bryan Morris. Bryan suffers from terminal cancer and his only hope of survival is a stem cell transplant. Bryan is not the type of guy to ask for financial help. UPDATE: On 3/30/19 Tim transitioned into hospice care. The family is very grateful for all of your financial support and prayers. The current donated funds and future donations will be used as needed for expenses. Tim and his family are grateful. The First Dark Clouds...Sean and Sara Pittman got married November 2012. The couple had met at Mizuno Sporting goods in the Atlanta GA area where they both worked. A daughter Kylie was born February 2014. It was a beautiful day. My Sister Ashley Daughter Mother & Friend Fighting for Her Life with Stage 4 Ewing's Sarcoma Back in May of 2016 my sister Ashley was 7 months pregnant when something just didn't quite feel right. As she pulled into the hospital on November 19th 2018 Charlie was diagnosed with Acute Lymphoblastic Leukemia (ALL). He will need to receive chemotherapy for over THREE YEARS in order to fight his cancer. Charlie spent three days in the Intensive Care Unit. Louis Jackson is a giver. Yogi poet anatomy guru and friend - he is humble and generous to a fault. Now though Louis needs to turn the tables and allow himself to receive. Early this year Louis was diagnosed with Stage 4 cancer. On August 20th 2018 approximately one week after proudly bringing his youngest son (of 4 children) to college to begin his freshman year Howard Hillstein was admitted into Millard Fillmore Suburban Hospital with pneumonia. Our friend Guillaume Lantoiné a local realtor and loved member of his community was recently diagnosed with metastatic colorectal cancer. In order to determine the severity of his cancer and receive a treatment plan he's currently in. Our son Jiyaan an amazingly energetic fun loving and vibrant 4-years was suddenly struck with a dangerous high fever (103 – 106) for many consecutive days with a multitude of symptoms and eventually air lifted to Children's Hospital. Hi friends and family As many of you know Molly was diagnosed with stage 3 breast cancer three weeks after her wedding in July 2017 at the age of 29. She went through five months and eight rounds of chemotherapy. Five months later she is still here. Recently Greg Keller has been diagnosed with a Malignant Diffuse Astrocytoma (grade II - IDH mutation). As you can imagine this is a shock to Greg his wife family and friends. Greg is a candidate for brain surgery to remove the tumor. Getting a diagnosis that you have a serious condition is scary enough. But it's more stressful when you're... Taking care of a sick family member Looking for a job Might not be able to work again for awhile Last month on April 14th 2019 Surgery update from Kelly: Neither the surgeons nor the tumor board were able to figure out how to safely biopsy or remove the unhealthy tissue deep in my pectorals. I am having another MRI next month. On December 26th 2018 Danielle "Danny" Mumm a perfectly healthy 19-year-old athlete suffered a sudden cardiac arrest in the mountains near Seattle.Danny Mumm one of five siblings has been an elite and passionate athlete. December 11 2017 is a date that Dave and Domenica will never forget. That night their 13-year-old son Sean Luca started complaining of a headache and began acting in a very agitated and confused manner. He was hyperventilating. Hello Everyone Our dear sister and friend Tahia Rahman and her family had been visiting Dhaka Bangladesh and were due to return to the states on January 9th. However on the night of January 6th Tahia became violently ill. Approx. 4 years ago Dana Leach was diagnosed with Colon Cancer. After surgery and many rounds of chemotherapy we were happy for the news of his remission.Unfortunately just after Christmas in 2018 his doctor's diagnosis was that after some extreme pain and a visit to the ER on Friday Cody was told a tumor had developed. ultrasounds and bloodwork confirmed that it is in fact testicular cancer. the doctors have decided to operate in two days. after this update as of 11/5/18As many of you know this fund was started by Meghan's aunt Trisha in the middle of the night on Friday Nov 2 in response to finding out that Meghan was put on a ventilator due to the affects of malaria. Immandade: Our friend and brother Luis Fernando the voice of Padrinho Alfredo and devoted son of Juranidam is in great need. He has recently been diagnosed with laryngeal cancer. He has already undergone extensive surgery.
